

BL 标准塑料球体

BL Standard Plastic Balls

产品特性 Product Features

■ 关节调心场合解决方案。极好的耐磨材料HPP28、HPP3等让BL系列关节轴承球体性能得以充分展现。同样可提供HPP5耐高温和抗腐蚀材料的球体和HPP21水下应用的球体

■ 免维护、自润滑

■ 耐腐蚀

■ 耐冲击、无噪音

■ 重量轻

■ The apherical self-aligning solution. The material HPP28 and HPP3 esures the outstanding advantages of the BL series plastic balls to be perfect. The high temperature and erosion resistance material HPP5 and in water applicaton material HPP21 are also available

■ Self lubricated and maintenance free

■ Corrosion resistance

■ Impad resistanca, low noise

■ Light Weight
